

II CONGRESSO INTERNACIONAL

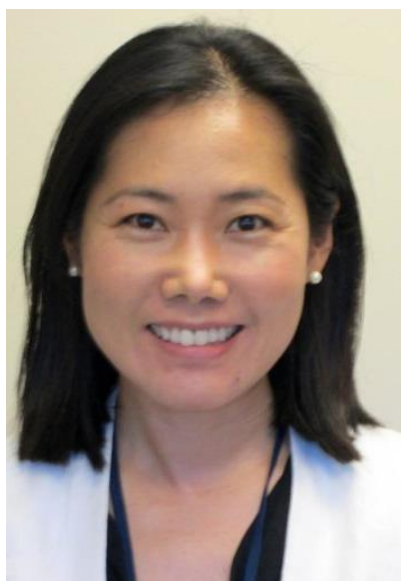

SOCIEDADE PORTUGUESA
DE TERAPIA DA FALA

2-4 ABRIL 2020 | LISBOA

Organização:
SOCIEDADE PORTUGUESA
DE TERAPIA DA FALA

Soo-Eun Chang, PhD

Soo-Eun Chang is the Principal Investigator and Director of the Speech Neurophysiology Lab. Soo-Eun is an Associate Professor in the Department of Psychiatry and the Rosa Casco Solano-Lopez Research Professor of Child and Adolescent Psychiatry at the University of Michigan. Soo-Eun is also an Adjunct Professor at the Michigan State University, in the Department of Communicative Sciences and Disorders, and the Department of Psychology. Soo-Eun received her MS degree and clinical training as a Speech-Language Pathologist at Vanderbilt University, received her PhD in Speech and Hearing Science at the University of Illinois at Urbana-Champaign, and trained as a postdoctoral research fellow at the NINDS Intramural Research Program at the NIH. One of the goals of her research program is to identify biomarkers that may help diagnose and predict persistent forms of stuttering in the future. Soo-Eun is also interested in developing novel treatment options for stuttering, which may include neuromodulatory techniques that augment behavioral therapy, and early intervention to prevent chronic life-time stuttering.
